

Maaïke Vierstraete graduated in 2019 at the University of Ghent, Magna Cum Laude, as a Medical Doctor. She has found her passion in surgery with a special interest in abdominal wall reconstruction. She has started a PhD trajectory on robotic abdominal wall repair at the University of Ghent with Dr. Filip Muysoms and Prof. Frederik Berrevoet as promotor. Special interest goes to the development of training models whereby she has recently written, on behalf of the European Hernia Society, a manuscript on the current European training pathway for robotic hernia repair.

Surgical resident AZ Maria Middelaers

PhD applicant at Ghent University on robotic hernia repair

Board member of the Belgian Association of Surgical Trainees

Course director of the Belgian Association of Surgical Trainees

Chair of the Robotic Abdominal Wall Surgery symposium (6th edition in 2023)

Specialty Advisory Board for Hugo RAS system of Medtronic

Deputy Medical Director Abdominal Wall Surgery @ ORSI academy
